# GUIDE TO SDL

SKILLFUL & DETERMINANT LEADERSHIP COURSE

BY KHREWS

## ABOUT SDL COURSE BY KHREDS

### SKILLFUL & DETERMINANT LEADERSHIP COURSE

We have introduced the "Skillful Determinant Leadership Online Course" to nurture creativity and critical thinking among our youth. Our aim is to address the lack of grooming and awareness of the fundamental principles being propagated in educational institutions. This course endeavors to promote the true and authentic ideologies of Islam while integrating the study of science within the framework of Islamic principles. Through this initiative, we aspire to cultivate responsible, knowledgeable, well-groomed, creative, and innovative personalities among our youth.

### About KHREDS

Allama Khadim Hussain Rizvi Educational Service is a sub branch of KHREWS ( Kindling the Holy Righteousness With Educational & Welfare Services being named after inspirations from Allama Khadim Hussain Rizvi نور الله مرقدہ, Also called Allama Khadim Hussain Rizvi Educational & Welfare Service) having Mission : Ummah's Rejuvenation (Revivitation) With Galvanization of Islamic Vanguard's Endeavors for Ascension of Islam. KHREWS wanna make Enthusiastic, Ideological, Educational, Skillful & Determinant Muslim Youth, to work for the Glory of Islam - Pakistan & Serving the Nation

### My Martyred Sister

HAIDER WITH HIS TEAM & SISTER IN AQSA

"Haider's Sword Maneuvers(چالیں), with his eyes covered by a black strip(کالی پٹی), missed all the strikes(وار) by his father's sword".

"His father taught(سکھانا) him all the skills of swordsmanship(تلوار بازی) when he was 10."

"His mother used to sing a cradle song(لوری) when he was a child."

"O my son, the Ayubi warrior bold,

Let evil bow before Islam's stronghold (قوت).

With sword in hand, make right your stand,

Fight for your sister, and your sacred land(مقدس سر زمین)."

"Haider's mission was to secure(یقینی بنانا) his sister's release(رہائی), detained by those opposed(مخالف) to their prosperity(خوشحالی). His sister's advocacy(وکالت) for advancing Islam through technology led to her 82-year imprisonment(قید). Now, he's sharpening(تیز کرنا) his skills and collaborating to free her. Additionally(اضافی طور پر), their land, a holy site and Muslims' first qibla, was seized(روک دینا), prompting their expulsion . Haider's main focus: liberate his sister, reclaim(دعوی) their land, and advance(آگے بڑھانا) Islam."

One night, Haider was with his team, stationed(پہنچنا) at the boundary wall of the jail where his sister was incarcerated(قید). Suddenly, they breached(توڑنا) the door and liberated her. As soldiers approached(پہنچنا), Haider's formidable(قوی) team subdued(مسخر) them with their swords(تلواریں). Following his sister's liberation(آزادی), they embarked on a sacred pilgrimage(زیارت) to the Muslim's first qibla, intending(ارادہ کرنا) to liberate(آزاد کروانا) it. At the same time, his sister expressed(اظہار) her desire(خواہش) to join them; after twenty years of imprisonment(قید), she sought martyrdom. Haider obliged(مجبور کرنا), and in the sacred land(مقدس سر زمین), they found only a few thousand survivors amidst the carnage(قتل) of countless slain(ان گنت مقتول). They fought relentlessly (چستی سے) and many of Haider's comrades(ساتھی) fell in martyrdom(شہادت). Amidst(درمیان) the chaos(افراتفری), Haider witnessed(عینی مشاہدہ) his sister's impending demise(موت) at the hands of two assailants(حملہ آور) within the holy mosque Al Aqsa. Overwhelmed(مغلوب) with grief(غم), he rushed(دوڑنا) to her rescue(بچانا), her last sentences were in a rhyming poem :

O my Ghaznavi Warrior Brother!

To martyr for Aqsa, my fervent(شدید) desire(خواہش).

Twenty years of captivity(قید), emboldened(حوصلہ دینا) my soul,

Be my voice to our nation's daughters, to console(تسلی دینا).

If I can endure(برداشت کرنا) this for Islam's sake,

Then surely, you too, can contribute, partake (حصہ ڈالنا).

Rise, for Islam, let the renaissance(انقلاب) begin,

In unity(اتحاد) and strength(طاقت), we shall win.

He awoke from the nightmare(خواب), drenched in sweat(پسینے میں بھیگا ہوا). Sharing his distress(تکلیف) with his father, Haider was reassured(یقین دلانا) that the liberation of his sister, Afia Siddique, and the Al

Aqsa Mosque was imminent(واضح), but achievable only through the shedding of blood on the battlefield (ميدان جنگ). His father after listening to him advised him:

O my son, the bin Qasim warrior(جنگجو) bold,

Islam calls for warriors, courageous and told.

Gather(اکٹھا کرنا) a team of skill and creed(عقیدہ) ,

For the holy mission, they must lead.

With sincerity(اخلاص) in their hearts, they shall strive(کوشش),

And with Allah's help, they will thrive(ترقی).

Awaken(بیدار کرنا) the youth, let them understand,

For your sister and holy land, take a stand.

## CHAPTER # 02

### The Unsolved Mystery

A MUSLIM STUDENT DOING RESEARCH IN SCIENCE

Let us suppose a small body X circulates around the body Y with a speed of 5 m/s and has to cover 100 m around the body Y to complete its circle and X body revolves around itself with a speed of 3 m/s. Let the distance from X to Y be 12 m. Now there are two situations. Y body is large so it will attract the body X because Y body's domain of attraction starts from 18m away and X is 12 m away distance. The attraction of body X into Y is pure and believable but we cannot say that body X has begun moving around body Y due to attraction of body Y. Because if body X has to move around Y there must be some anti forces that should not allow the Body X to circulate and wanted X to be out of range of gravity of Y. In classical physics it would be inertia of the body X that will resist the attraction of Y. But still the mystery

remains unsolved , similarly if I say that another body Z revolves around the body X , lets suppose that due to Y and X attraction, it begin circulating around the X and didn't move into the X. But why? when away from the Y outer side of X it moved, it does not collapse to X. Yes no! logically it can be described as vertical circle of orbit for Z body around X. But the Mystery Remains Unsolved that how much powerful that inertia was ? How did it opposed the Y's attraction? Why the body X begin to move ? All the questions need serious attention of especially Muslims. In this Conceptual Example I have not discussed Quran & Sunnah , because if the Body X is considered Earth then in Quran it is stated that it is still (Sakin) . Similarly if I say that Millions of years ago there were no humans and then a biological process started and the evolution started initially from water loving creatures then to land & finally human . Actually the start of evolution from insecticides or biological creatures cannot be accepted as if human's ancestors are chimpanzees then why more chimpanzees are not becoming human. And even why not any other creature evolves from Totally different creature. Yes it is true that evolution occurs by the fight for living among the animals. But accepting the evolution of human from chimpanzee or insecticides cannot be logically acceptable. We have to go in depth of this knowledge and under Auspice of Quran & Sunnah we have to cultivate the Science formulas to prove the Ideology of Quran. Begin thinking over this ! Not offensively! Be humble and a critical thinker ! It's Your Duty to Daily Search About Science , Islam doesn't contradict science rather it gives insight to special thinking in science. But if Those Theories are made by which " Allah's Existence" is faded then it is not science, actually it is a roadmap to atheism. At least we should study the theories with proper logics involving Quran & So, begin thinking, instead of other people began formulating theories against Islam, we have to wake up and go deep into science under umbrella of Islam.

## CHAPTER # 03

### My Islam vs Your All -Isms

#### A CAPITALIST GOVERNING ALL THE SOCIALISTS & COMMUNISTS

Consider an industry being run by 3 businessmen. 200 employees are working in it . The categorization of workers is of three types , one is administration, second is management staff and third is physical working peoples on machines. All three having different wages. If any owner of industry says that we want more employees as the demand of product is increasing in market. Now Employees say that we all 200 will work more time , don't hire more servants rather increase our salary. What the owners will do ? Obviously if they hire more servants they have to give them salary and food etc. They will only increase the salary of

each person from 25 to 35 and instead of hiring 100 more servants and paying them another salary of  $100 \times 25000 = 2500000$  now they have to pay only  $10000 \times 200 = 200000$ . Similarly Consider that there are 300 industries in our country working on the different Products and now they carry on the same procedure then  $300 \times 100 = 30000$  new persons employment has been replaced by the already existing employees who are happy in even 35000 too because of the emerging Economical crisis. Now understand the basic principles. Owners are maximizing efficiency of their business resulting in the capitalism while on the other hand workers are having their own principles of maximizing their life efficiency resulting in communism or socialism. The basic issue that emerged is "unemployment" the basis of economical crisis . Where to go for Money? No employment! No seat available! Both of these isms are the bases of all the economical crisis . Actually the issues starts from the bases if the bases are wrong then all is wrong. The source of all other isms is humanism meaning that just human is everything and nothing else, all the living rules and other rights will be made by only human and only one religion there is, that is humanism. It has many branches like liberalism, secularism etc. Now what types of rules do they make, Let's Discuss: For economy they follow socialism, capitalism or communism, for personal life they prefer LGBTQ (Transgender plans and so on. No proper source is there , no scope is there instead of making money out of a man and producing a large amount of money. Actually consumption and production will depend upon consumer's behavior, and which is directly proportional to the needs. His behavior will decide what he wants in his life and then he will produce that thing and will consume according to his behavior. If behavior is governed by western culture, there are no etiquettes, no business rules, just governed by men in which they have made a large profit to capitalists and low profit to the joining people and only scope is to produce money. Capitalists will never look after the needs for poor people. On the other hand when Islam governs the behavior of the consumer, now The Source is Quran & Sunnah. All the rules written in them , all etiquettes written in them! No favour to anyone. Look after for all the poors. When the mode is Consumption, Islam says consume for yourself, your home and then for the poors and then the Concept of not going out of the limited point of using money and similarly don't be so miser. When mode is production then Islam gives a number of types for the business. Islam says do partnership, do muhaqla , do mudarba etc but two things are necessary, the concept of Halal & Haram , Loyal Values of brotherhood and the rules of business in which there should be no Interest (Sood)! Islam contradicts those rules in which one is having difficult while other is having profitable life. When the money switches to more than 7.5 tola Gold and 52.5 tola Silver then in Distributing mode Islam says now to give Zakat ,the Necessary Legacy , while Sadqa , Fitrana etc. which are optional legacy not dependent upon some money gathering. Zakat circulates the money among poor and rich in a society. Now consider Poor people Creation from the Capitalism & Socialism, Islam has its one component in the mode of distribution that circulates wealth to remove these crisis. It means these economical crisis are actually the part of these today's isms, while Islam has its own whole economical policy. How when above system is capitalism and Islam can be implemented below, it will be just as now Zakat is removing the crisis made by these isms. So ,Now begin making planning of earning money so that our youth could stay in Pakistan and through proper halal way they could produce money. Financially Stable personalities can work better for Islam, our goal is also to make a economically stable Pakistan, by the help of skills enhancing among your. What is your duty ? Just learn all the principles and rules given by Islam From ( الم ) To ( والناس ) and begin making planning in production, consumption, distribution and exchange modes of economy.

# CHAPTER # 04

## The Defenders of Islam Are Always Successful!

### AHMED HELPING QASIM & MAHMOOD TO ESCAPE OUT OF JAIL

Night was so cold. "How will we be dealing with this ice, Mahmood?" Qasim asked. Mahmood replied, "Don't worry, Allah is with us. We are here as guards of the Finality of Prophethood; He will protect us. Be brave!"

Qasim and Mahmood were both university students. One day, a student was accused of loudly proclaiming (دعوی کرنا) in a crowd, "I am the prophet of Allah; I feel His presence in my heart, and Allah speaks to me." Both Qasim and Mahmood were there, and upon hearing this, they began to contradict (مخالفت) him, saying, "You are wrong; there is no prophet after our حضور ﷺ." He began blasphemy (گستاخی) against the Prophet ﷺ and spoke immorally (غیر اخلاقی) about him ﷺ. They caught him and took him to the university administration (انتظامیہ). The administrator was also a Qadiani; he initially said, "I am calling the police; leave him." However, Mahmood and Qasim insisted (اصرار) not to let him go. The administrator called the police, and upon their arrival, he bribed (رشوت دینا) them with one thousand dollars to release the accused student. The police agreed and arrested (گرفتار) Mahmood and Qasim for attempting to harm the accused student. They were taken to jail, while the crowd merely watched without intervening (مداخلت).

In jail, the police taunted (طنز کرنا) and physically assaulted (تشدد) Mahmood and Qasim. The administrator returned with his superior, offering an additional two thousand dollars to continue the physical and mental torture. That night, Mahmood and Qasim were placed between blocks of ice in the jail cell. Despite (باوجود) the harsh conditions, they remained steadfast (ثابت قدم) in their faith, praying to Allah for strength and perseverance. The next day, a compassionate policeman named Ahmed took charge of their case. He empathized (بمدردی) with their plight (حالت زار) and was determined to help them, even at the risk of his own job.

Ahmed devised (تشکیل) a plan to rescue Mahmood and Qasim from jail. He protected them from further harm and provided them with necessities (ضروریات) like food, water, and warm clothes. Eventually, he successfully orchestrated their escape (فرار کو کامیاب بنایا) by incapacitating a fellow policeman and unlocking their cell. After their release, Mahmood and Qasim, with the help of Ahmed, sought

justice(انصاف کا مطالبہ) against the accused student and the corrupt university administrator. They collaborated to bring them to justice, eventually leading to their arrest and sentencing.

Qasim & Mahmood went to their homes and recounted(حال سنانا) the situation of their four days in jail. Their parents belonged to a poor family and could do nothing against those Qadianis. Qasim, Mahmood & Ahmed began planning how to bring the accused blasphemous student of the university and the administrator to justice. Ahmed explained the procedures of arrestment(گرفتاری) to them, detailing how a policeman is allowed to arrest. Qasim & Mahmood searched the home of the student accused of blasphemy. Ahmed filed an FIR against the student, accusing him of harassing girls, following the directions from Qasim and Mahmood. They provided the address of the accused, and Ahmed, along with his team, arrested him before he could become aware of the FIR. Ahmed transferred the accused to a new city police station where the SHO was a true Muslim. The SHO filed a case against the administrator for corruption(بد عنوانی) in the university and money laundering. After interrogating the accused, he became a witness(گواہ) in the case against the administrator. The administrator was arrested by the SHO before he could be alerted(با خبر). Both of them were kept in separate cabins, and after winning the case, even the big bosses remained unaware, and both were sentenced to 10 years in jail.

In this story, a dual scenario is depicted: one where Qasim and Mahmood feel hopeless and powerless, and another where true Muslims in positions of authority prioritize(فوقیت دینا) the protection of Islamic principles. It serves as a silent reminder for all to safeguard the foundations of Islam, emphasizing(زور دینا) the crucial role of individuals committed to upholding its values, even within bureaucratic systems.

## CHAPTER # 05

### Crack The Basics of English Grammar

#### LEARN ENGLISH GRAMMAR BASICS

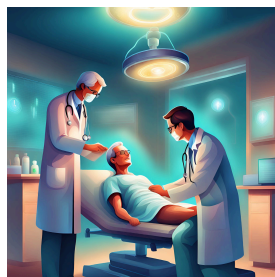

A sentence is made up of SP( Subject & Predicate). Subject and Predicate are made up of parts of speech. Subject includes Noun or Pronoun while Predicate includes Verb and Group of words acting as object ( Noun / Pronoun) and small group of words acting as additional information to SVO( Subject -Verb & Object) . The small group of words are called additional which include phrases , adjectives , adverbs standing alone or acting as a complement etc . The SV ( Subject - Verb ) combination is Called Clause, while simple SVO or SVO + additional combination is also called sentence. There are Two types of

clauses: " Dependent clause and independent clause ". Dependent clause includes noun, adjective, adverb clauses while independent clause includes Cumulative, illative , alternative , Assertive clauses. Don't worry! We will break very thing to pieces. Firstly, if One dependent and one independent clause is used then the sentence is named as complex sentence, if both dependent clauses are used then the sentence is named as compound sentence and if only one clause is used it is known as simple sentence. In a sentence structure, there is subject (He), verb (eats), mangoes (object) in morning (additional That is Phrase - adding information that when he eats mangoes). Similarly, He (Subject) Went (Verb) to room (additional that is phrase) crying (additional that is Subject Complement). And also, He (Subject) painted (verb) the building (object) red (additional that is object complement). Only you have to learn is firstly that a sentence is made of clauses (He eats) + object (mangoes) + additional that is phrase (in morning) or additional that is Complement (crying - red). A sentence can be extended by using additionals either alone adding information as an adjective to subject or object like Smart boy, in this example Smart is an adjective adding information to noun (boy) or as adverb like run fast, in this example fast is used as an adverb adding information to the verb (run). Now listen some rules, Every Adjective can be a complement, but every complement cannot be adjective. Actually, Complement has to add additional meaning to Subject or object. While adjective has to add meaning to noun and pronoun. There is not a big difference, but noun or pronoun can be of Maximum 2-3 words but subject and object can be of broad variety including adjective, noun and pronoun for example: A Silly Boy went to room crying. Here Silly is an adjective and boy is noun, all used as subject while crying is used a subject complement although, the crying itself is not adjective. So, Complement is a boarder term used in comparable to adjective. Now whenever you are doing analysis of a sentence similarly note firstly where is verb. Draw a line below it, encircle before it all the subject and after it includes the verb itself as Predicate. Now after the verb the group of words are present being used as an object while small group of words being used as additionals. If the verb is transitive verb (meaning that passive voice can be made) then after the verb there is object which can be direct object of answers what? After verb and indirect object adjacently and of only one object present and nothing else instead of additionals then that additional can be object complement or simple phrases (adding information to verb). If the verb is intransitive (no passive voice made) then after verb is subject complement or simple phrases (adding information to verb). Now you can easily detect different parts of speech and parts of sentences. Parts of speech will include (noun, pronoun, adjective, adverb etc.) while parts of sentence include Subject - Predicate (and its components). For practice many examples will be given in exercise portion. All Grammar discussed here is the base of learning the English.

## CHAPTER # 06

### Basics of Daily Medical Cases

LEARN BASIC MEDICAL TIPS

It's very difficult diagnosing diseases especially for non medical personalities. Let's Discuss few Medical tips. When you are having a heartburn, it means by eating fast food you are now having an initial stomach burn stage. Just ask yourself that have you eaten fast food? If yes it means you are at stomach burn . Now firstly use curd before breakfast every day and remove the list of fast food from your life. If it betters by it so best but if not take a medicine name Omeprazole before breakfast it will cure you in a week. Actually medicine ending in zole are mostly used in heartburn cure. Similar if you are having pain in any part of your body . Now you wanna cure it simply rest your body , if the pain instead of spreading throughout the body is localized at specific part of body now we have to go to the medicine. Firstly, are you a blood pressure patient? If yes then never take Diclofenac Sodium, rather use Diclofenac Potassium. Mostly medicines ending in Fenac are pain curing medicines. Similarly sometimes instead of using medicine's ending in fenac you can use medicines ending in coxib like celecoxib for pain curing. Other medicines like nimsulide can also be used for pain curing . Now if you are having infection, which means redness, swellings, pus Creation, now you have to use instead of only pain curing , the bacteria killing medicines too. For this simply use the medicines mostly ending in mycin like azithromycin best for Your pharyngitis ( in which your pharynx got infection) . Similarly if you are having a common lung infection best medicine prescribed initially is ending in ofloxacin ,like levofloxacin , moxifloxacin. Some Local clinician available in streets who act as a doctor use a Superman formula to cure a patient. Like they use " Ciprofloxacin ( bacteria killing medicine also called antibiotics) 500mg + ibuprofen inflammation killer medicine + Dexamethasone injection (1+1= meaning two at a time ) by which patient's body becomes iron man and patient him sleep Become superman and gets cured quickly for a while and patient always say about this clinician that he is a very best doctors in our area. But sometimes the superman formula result in the production of Hulk and sometimes in death too. So always go to a certified doctor and always ask him why he has given this medicine and what is its use. Some patients complain about the pain in the joint of foot thumb or at ankle joint. This pain is not refered as simple pain , for this simply first of all have a test named uric acid test. If uric acid test is positive then allopatric medicine will be used. Some patients say that they are having allergy which may be now of two types , one is pus pimples or scars or lesions on skin and sometimes the sinusitis ( meaning Nazla Zukam ) Medicine named Desloratidine or loratidine are used, similarly if you wanna rest for whole night then simple use cetirizine medicine . Actually the cetirizine causes mind to sleep .and loratidine or Desloratidine do.I think these medicines are enough for you to learn

## EXERCISE PORTION

*SOLVE ALL THE QUESTIONS.*

1. Write a story on the Topic " Haider Conquered Aqsa" .Use the rhyming stanzas in the story and also the vocabulary used.
2. Do a Research on the topic " Darwin's Theory & Is Earth Revolving or rotating or not? Write four A4

paper article on it.

3. Write your own planning regarding " how Pakistan can have a better economical condition and how to stop youth from leaving Pakistan "?

4. Begin Research on any topic that Muslim scientists were studying and write 3 paper articles on it.

5. Write short poem for children in English presenting the ideologies " Releasing Afia Siddique, Guarding Khatme Nabuwat, Namooos e Risalat ﷺ , Palestine is mine, All Sahabas & Ahle Bait رضوان الله عليهم are our pride, No Acceptance to Corrupt Governer."

6. Write about yourself that what you can do for Islam? If you are a university or College Student, have you canceled any concert or shameless qawali night in your institute? or are you doing Ideological working in your University /College / school?

7. Write the Medical & Health Tips Given By Islam.

# IDEOLOGICAL COMICS

LEARN , LEAD AND SERVE FOR ISLAM , PAKISTAN & NATION

## DR AFIA SIDDIQUE : DAUGHTER OF ISLAM

# Dr Afia Was Against Slavery Education

Dr Afia was sentenced to 82 Years of Jail in America . Her only fault was that she wanted youth of Pakistan to be out of slavery education and become creative and enthusiastic for Islam , Pakistan & Nation..
